SMi Group reports: Defence Logistics Central and Eastern Europe returns for its 5th successful year in March 2020

BUDAPEST, HUNGARY, October 31, 2019 /EINPresswire.com/ -- SMi Group presents the 5th annual Defence Logistics Central and Eastern Europe, taking place in Budapest, Hungary on 3rd and 4th March 2020.

As the need for armed forces to enhance and maximise their logistical capacity continues to grow, and with the current political climate in Europe, it is now more important than ever that senior military officials meet to discuss planning, joint operations and allied interoperability, as well as engaging more closely and efficiently with industry. Increasing reliability, reducing costs, and exploiting new developments and the growing links between militaries, remains at the forefront of defence logistics as a means of providing critical operational advantages, and increasing allied effectiveness across the region.

The 5th annual Defence Logistics Central and Eastern Europe 2020, for the first time commencing in Budapest, Hungary, will bring together the key military logisticians from across the Central and Eastern European region and beyond. The conference aims to discuss new trends, crucial developments, and the methods, strategies, and procedures armed forces are increasingly pursuing for optimal logistics efficiency.

Key fundamental topics discussed at the two-day conference includes: Regional Updates, Heavy Lift (rail & air), Fuel Logistics, Supply Chain Management Solutions, International Operations and Solutions, 3rd party logistics, Future Trends, MRO (Maintenance, Repair and Overhaul) and more!
