MINNEAPOLIS, MN, UNITED STATES, November 4, 2019 /EINPresswire.com/ -- East View Information Services is pleased to announce the release of the digital archive of Al-Ahram, Egypt's long-standing newspaper of record and the authoritative register of Egyptian life and politics for over 140 years.

Founded in 1875, Al-Ahram (الهرم، "The Pyramids") is one of the most prominent Arabic newspapers in the Middle East, including its legacy as Egypt's most authoritative and influential national daily. For much of its existence, it was the Middle East's most-circulated Arabic-language daily newspaper. This stemmed from its reputation for quality and accuracy – backed up by powerful in-house news research functions. The paper was the first in that region of the globe to thoroughly modernize its press and publishing mechanisms, bringing computerized automation during the 1970s to accommodate Al-Ahram's international importance.

Al-Ahram's coverage sums up all parts of Egyptian news, including economy, sports, Egyptology, the arts, and Egypt's critically important cinematic presence. Foreign press has considered Al-Ahram's conclusions on national politics as the first-to-cite on pressing matters coming out of the Middle East.
