Industry News

Phil Schiller, the marketing chief of Apple announced the advent of the mind blowing details of the new Smartphone 3D Cameras in iphone11s. It will be of much higher quality compared to iphone XS and out of any competition with the other phone cameras. Besides this, they will be collaborating with Google and the quality matches with the Google pixel 4 cameras launched a year earlier. Phil boasts about the features of the camera and declares that the works with the camera will bring a new trend in computation Photography where even dimly lit regions can be photographed with brilliance and its quality will be equal or may even beat the pictures taken by expensive digital cameras.
