

# The Future Awaits: AI Conference For the Healthcare Industry

*Keep Up With Change & Explore How AI & ML are Impacting the Healthcare Industry at Ai4 Healthcare November 11-12.*

NEW YORK, NEW YORK, USA,  
November 5, 2019 /EINPresswire.com/  
-- The [Ai4 Healthcare](#) Conference is an application-only gathering of business leaders and data practitioners within the healthcare industry.

The conference, taking place in an intimate setting over the course of two days, includes [8 tracks](#) to ensure that each attendee has talks that are relevant to their specific role within the industry. 4 of these tracks are technical "Data Tracks" geared towards the data scientist or engineer and the other 4 are non-technical "Business Tracks" geared towards upper level management.

Conference themes include how AI is solving problems related to case prioritization, chatbots, diagnosis & prescription, drug discovery, electronic health records, imaging insights, insurance fraud, medical devices, patient access, population health, and pricing & risk.

Last year, the Ai4 Healthcare conference was a sold out show with 350+ senior healthcare execs & data practitioners in attendance from the largest healthcare companies in the country. Attending the conference is by application-only to ensure the best quality networking for attendees. Senior leaders and data practitioners at healthcare institutions can find the [Ai4 healthcare application](#) here to be considered.

This year Ai4 Healthcare will have 85+ speakers. Confirmed speakers include:

Stephen Wong, Chief Research Information Officer, Houston Methodist  
Julie Zhu, Chief Data Scientist, Optum Technology, UnitedHealth Group  
Hassan Tetteh, Health Mission Chief - Joint AI Center, Department of Defense  
Peter Fleischut, Chief Transformation Officer, NewYork-Presbyterian  
Jim Weatherall, Vice President of Data Science & AI, R&D BioPharmaceuticals, AstraZeneca  
Nels Lindahl, Director - Clinical Decision Systems, CVS Health  
Arek Kaczmarek, Executive Director, Data Science & Data Ops, Providence St. Joseph Health  
Christopher Khoury, VP - Environmental Intelligence & Strategic Analytics, AMA
