

# Estron Chemical Driving Sustainability

CALVERT CITY, KENTUCKY, UNITED STATES, November 6, 2019

/EINPresswire.com/ -- [Estron](#) Chemical is proud to have commenced an initiative to eliminate single-use, non-biodegradable plastics and styrofoam from its Corporate Headquarters in Calvert City, KY. Per Estron President Alexander Skora, "At Estron, we are passionate about innovation, and are applying that innovative spirit towards reducing our environmental footprint.

In the absence of coordinated government leadership to help solve the global problem of excess plastic degrading our environment, we firmly believe that it is up to businesses to take the lead in driving [sustainability](#) initiatives and serve as champions for this important cause."

“

At Estron, we are passionate about innovation, and are applying that innovative spirit towards reducing our environmental footprint.”

*Alexander Skora*
