The report covers a detailed competitive outlook that includes the market share and company profiles of key players operating in the global market. Key players profiled in the report include Quantros Inc., Premier Inc., Cerner Corporation, Medisolv Inc., Nuance Communications Inc., Mckesson Corporation, Dolbey Systems Inc., and Citiustech Inc.

One major factor that is promoting the growth of the healthcare quality management market is the drive of the governments. Governments are instilling stringent rules and standards that hospitals, clinics, and other healthcare providers have to follow. The increase in the unstructured data that all these health providers handle is also one reason why there is need for quality management solutions to be in place. This report considers the years between 2017 and 2025 to be the forecasted period and picks up vital details about the market's growth and sustenance.

This global healthcare quality management market report gives a clear understanding of the different market drivers that will both positively and negatively affect the industry's growth. Vital insider information that stakeholders can use is also provided in the report. This study picks up information through multiple primary and secondary research results. This report is an inclusive study of the industry as a whole and global, regional and company level analysis is done.

## Market Segmentation

Business intelligence and analytics solutions and physician quality reporting solutions are the two types of healthcare quality management types available globally. Web and cloud based and on-premise solutions are the delivery modes that these types are available in. There are 2 broad areas of application for these management processes that the report identifies. They are data management and risk management. Under data management, unstructured data abstraction,

report generation, data processing, and analysis, and report submission are the types discussed. This report also analyzes the demand created by end users like hospitals, payers and ambulatory care services.

## Regional Analysis

Asia-Pacific, North America, Europe, Latin America and the Middle East and Africa are the different geographical regions where the healthcare quality management processes are investigated. This report identifies the regions that will emerge as market leaders in the coming years and mentions that in the report. The key players in these regions, their business location and their potential support in improving the market status are all studied. This report also goes on to identify submarkets in these regions. The growth prospects of these submarkets and their positioning in the main market are mentioned clearly in the report too.

## Industry News

In October end 2019, the U Mass Memorial medical center in Worcester announced the appointment of a new Chief Quality Officer to oversee the quality management processes of the hospital. Dr. Kimi Kobayashi's chief duty would be to oversee patient safety.
