

# Perfect World Mobile Announces Vulpine Class

*New female Untamed arrives this November 13th*

SAN FRANCISCO, CALIFORNIA, UNITED STATES, November 8, 2019 /EINPresswire.com/ -- Perfect World Games has announced today that the all-new Vulpine class will be arriving for players in Perfect World Mobile on Nov 13th. As a member of the Untamed the beautiful and challenging Vulpine are female characters that have two forms, the human and fox forms and are able to deal damage as well as debuff their foes. Vulpine will also be the first class in the reimagined classic MMO to be able to tame pets.

Belonging to the Untamed race, Vulpines are able to shift between two forms similar to that of their fellow Untamed the Barbarians. While Barbarians are able to shift between anthropoid and tiger forms, Vulpine is able to shift between anthropoid and fox forms. Excelling in both damage dealing and debuffing, making them powerful adversaries and allies in both dungeons and PvP combat.

TRAILER:

The Vulpine's abilities are directly linked to their chosen form. While in their human form Vulpines are similar to rangers, they are masters in the art of using toxins and hexes as well as dealing magic damage upon impact. Vulpines excel at maintaining a safe distance in order to keep a persistent advantage over their enemies with the use of abilities such as Frost and Rock Hit which has a chance to stun targets for a period of time. Should a Vulpine be cornered they are able to switch into their fox form allowing them to utilize their melee abilities. While in fox form Vulpine also benefits from increased mobility allowing them to outmaneuver their enemies.

Aside from their shapeshifting and distinct abilities Vulpine are also the only class able to tame pets in Perfect World Mobile. While out in the world Vulpine players will be able to tame pets with a claw icon next to their name. Additionally, tameable pets may also come in different ratings and quality such as silver and gold, with gold pets having superior and varied skills in comparison to their baseline forms.

Once tamed players can choose whether they would like to release or deploy pets. Pets that are deployed into combat have three different modes. 'Follow' mode in which the pet will not attack unless given specific commands by the Vulpine player, in 'passive' mode pets will assist the player by attacking their target, and when in 'active' mode pets will attack any enemy that comes within the Vulpine player's vicinity.

The Vulpine class will be available for players in Perfect World Mobile this November. To explore the reimagined 12-year classic on mobile visit the game on the App Store or Google Play. For more information on Perfect World Mobile visit the official site.
