PUNE, INDIA, November 9, 2019 /EINPresswire.com/ --

[Organic Tobacco Market 2019](#)

Organic Tobacco is made up of a blend of herbs that are cultivated without the application of any chemicals. Tobacco has different species, all of which originate from the Americas. *Nicotiana tabacum* L. is the most popularly manufactured type and is used for making commercial cigars, cigarettes and smokeless tobacco products. *N.rustica* is another species which is harvested overseas and has come into prominence because of its high nicotine level, and it is also used in creating insecticides and other specialized products.

Organic Tobacco is gaining popularity because of being ‘additive-free’ which makes these much less addictive and safer than the consumption of normal cigarettes.

The following key manufacturers covered in this report

Santa Fe

Hi Brasil

Bigaratte

Vape Organics

Mother Earth

Farmers all over the world are going to switch to natural farming by 2020, as several countries have an increasing demand to procure tobacco produced under Sustainable Tobacco Programme (STP). The tobacco industry is looking for a kind of production procedure that is free from any pesticide residue and non-tobacco materials.

The taste, texture of Organic Tobacco differs greatly from the mainstream cigarettes and the type of tobacco that they include. Organic cigarettes consist of less tobacco and have fewer chemicals compared to pre-rolled and packaged cigarettes. Carcinogens aren't present in this type of tobacco, and it's the purest form of tobacco, totally unfiltered and real.
