

# Automotive Pumps Market to 2022 –Global Market Size, Development Status, Top Manufacturers, and Forecasts

PUNE, INDIA, November 12, 2019  
/EINPresswire.com/ --

WiseGuyReports.Com Publish a New Market Research Report On –“Automotive Pumps Market to 2022 –Global Market Size, Development Status, Top Manufacturers, and Forecasts”.

[Automotive Pumps Market 2019](#)

Description: -

The Automotive Pump is a device that used to move certain liquids like water, fuel, and others. Electronic pumps used in cars called fuel pump and is fitted inside the fuel tank of the car. Fuel Pumps has two major working principles, such as, at the fuel line, it creates positive pressure and pushes gasoline to the engine. Automotive Pumps operated with the help of some mechanisms such as rotary and reciprocation, which results in moving fluids by consuming energy.

The major players in global automotive pumps market include:

- Aisin Seiki Co. Ltd.
- Delphi Automotive
- Denso Corporation
- Robert Bosch Gmbh
- Johnson Electric
- KSPG AG-A- Rheinmetall
- Mikuni Corporation
- Magna International
- TRW Automotive
- SHW AG

The mechanical Pump serves many services such as pumping and filtering waters of wells, ponds, aquariums, and used in irrigation too. Fuel pumps are used in the car industries for cooling water, fuel injection. Pumps are also used in the energy industry for pumping oil and natural gases. In the medical industry, pumps are used in the cooling towers for ventilation, heating, and biochemical processes to develop the production of medicines, surgeries. When a pump has one rotor in the casing, it called a single-stage pump. And if the casing

contains more than one impeller, it is called a multi-stage pump.

#### Market Segmentation of Global Automotive Pumps Market

The Global Automotive Pumps Market has been segmented depending upon their types. The different types of segments are,

Positive displacement pumps- in this pump volume of the liquid remains constant throughout the whole process. On the suction side, it uses an expanding cavity, and on the discharge side, it uses a decreasing cavity. Liquid flows in through expanding cavity and out through decreasing cavity by this Pump.

Impulse pumps- it operates through pressure created by natural gases. It consists of hydraulic ram pumps that are powered by hydropower, Pulsar pumps that run by kinetic energy, and airlift pumps use to move the liquid up while bubbles come in the upward direction.

Velocity pumps- These pumps are the kind of dynamic pumps that uses kinetic energy to increase the liquid flow.

#### Major Geographical Regions of the Global Automotive Pumps Market

Based on the region it covers among more than 15 countries, the Global Market of the Automotive Pumps regions includes the United States of America, from North America, Germany, France, United Kingdom, Italy, Spain, Poland, and Russia from Europe, China, Japan, South Korea, India, Indonesia, Singapore, Thailand, Malaysia, Philippines, Vietnam, and Australia from Asia-Pacific, Brazil, Mexico, and Colombia from Central & South America. And Turkey, Egypt, South Africa, Saudi Arabia, United Arab Emirates, from the Middle East & Africa.

#### Industry Insights

The Global Market for Automotive Pumps is expected to grow at a Compound Annual Growth Rate (CAGR) of 6.3% and generate revenue of more than its expectations by the year 2022. The Global Market of the Automotive Pumps was recorded to be moving at a higher positive side in the year 2018. The forecasted period for the growth of the Global Market for Automotive Pumps is termed as 2018 – 2022. The market of Europe has been seen to be the largest consumer of the Baby Carrier product with the highest number of the market share. The continent of Asia has been recognized as a developing market for the product in recent years.

#### Table of Contents – Major key points

- 1 Market Introduction
- 2 Research Methodology
- 3 Market Dynamics
- 4 Executive Summary
5. Market Factor Analysis
- 6 Global Automotive Pumps Market
- 7 Competitive Analysis
