

# Beef Market 2019: Global Analysis, Share, Trends, Application Analysis and Forecast To 2024

*Beef Market 2019 Global And North America Analysis, Opportunities And Forecast To 2024*

PUNE, MAHARASHTRA, INDIA, November 12, 2019 /EINPresswire.com/ -- [Beef Industry](#)

## Description

The food and beverage industry has always been a lucrative industry and has presented itself as one of the leading segments all across the globe. One such segment that has represented itself as a major industry in itself is the global beef industry. The industry hit a \$300.6 billion mark in the year 2017 and is expected to grow at a compound annual growth rate of 3.15 from the year 2017 to 2025. The industry is growing by leap and bound in recent years and is known to have a significant impact on the industry.

When it comes to the beef market, there is a slew of factors that affect the growth prospects of the industry. The rise in disposable income, coupled with rapid globalization, has helped the industry flourish all across the globe. On the other hand, beef could be found at every nook and corner of the world. Easy availability has led to the rise in consumption, and by the year 2025, the industry is expected to cross a major milestone.

On the other hand, the development of the latest treatments for the growth of healthy cows coupled with rising global population has helped the industry grow exponentially all across the globe. But despite the heavy demands, the industry is viewed with skepticism. The on-going slaughtering has provoked the attention of animal rights activists while the vegans have also joined hands in the movement. On the other hand, cow slaughtering has hurt the religious sentiments of the religious groups in nations like India. This, in turn, has affected the growth prospects of the industry.
