

Registration Opens for Defence Aviation Safety Conference 2020

SMi reports: Registration is now open for The Defence Aviation Safety Conference, which will return to London on 23rd- 24th April 2020.

LONDON, UNITED KINGDOM, November 12, 2019 / EINPresswire.com/ -- SMi Group are delighted to announce that the [Defence Aviation Safety](#) Conference is returning to London in April 2020. As the leading event dedicated to aviation safety in the defence and military environment, it will be a key diary date for all those in the industry.

The banner features a dark purple background with white text. At the top right is the SMi logo with the tagline 'LINKING BUSINESS with INFORMATION'. The main text reads 'Defence Aviation Safety Conference' in a large, bold font, followed by '23rd-24th April 2020' and 'London, UK'. At the bottom, the website 'www.defenceaviationsafety.com' is listed. Below the banner, the text 'Defence Aviation Safety Conference 2020' is displayed in a smaller font.

Last year, the event boasted 24 speakers from industry-leading safety regulators, operators and providers, including 5 essential briefings from the UK MoD showcasing the latest strategies and technologies being used to enhance aviation safety.

This year, [the two-day event](#) will highlight key topics in defence aviation, such as designing and maintaining safe air systems, certification, mutual recognition, safety data optimisation and greater collaboration between government and industry.

The conference will also provide the opportunity for delegates to network with senior military leaders in the aviation safety domain, as well as defence experts in government and industry from around the world.

Registration is live on the website and an early bird saving of £400 is available for bookings made before 13th December 2019: www.defenceaviationsafety.com/EINpr1

Key topics will include:

- Designing and maintaining safe air systems including the role of certification in each
- Ensuring and assuring safe operation of air systems
- Weapons safety and integration
- Safe integration and certification of systems-of-systems
- How military and industry can work together to apply standards more effectively to reduce the cost and length of the certification process
- Mutual recognition and the shared use of available evidence
- Certification requirements at different stages of a system's lifecycle

The full agenda and speaker line up will be announced soon; those interested in attending can register now to claim their £400 early bird discount: www.defenceaviationsafety.com/EINpr1

Defence Aviation Safety Conference
23rd – 24th April 2020

London, UK
