REVIEW of 'GROGAN THE MONSTER':

'Every so often a book comes along that is meant to educate and help kids, not just on a "learn to read" level, but a deeper level that instills something that stays for life. One such book is "Grogan the Grateful Monster: What Do You Love?"

This book was written from the mindset of a man who is a scholar specializing in child psychology. He knows what's going on in children's minds and has dedicated some of his creations to make materials that help kids learn and grow.

Grogan the Monster is also an interactive iBook that helps kids learn how to read and sends a meaningful message at the same time.

Grogan is a baby monster. Once he hatches, he starts to wonder and observe and learn. He begins to learn that there are so many wonderful things in the world and that they make this world a wonderful place to be in. He teaches the art of being grateful and happy for what's around us.'
