Capital Numbers Receives ISO 27001 Certification

Capital Numbers, a leading software development company, is proud to announce that it has earned the 27001:2013 certification after a rigorous audit process.

KOLKATA, WEST BENGAL, INDIA, November 15, 2019 / EINPresswire.com/ -- Capital Numbers (CN), a leading software development company, is proud to announce that it has earned the 27001:2013 certification after a rigorous audit process. CN has always established, implemented, maintained, and improved its information security

Capital Numbers is now an ISO 27001 Certified Organization!

Capital Numbers has earned the 27001:2013 certification after a rigorous audit process

management system. It has unfailingly taken steps to secure its sensitive data and critical assets. And this certification demonstrates the organization's efficiency and success in being able to do so.

> We're proud to earn this certification which proves that we're 100% committed to information security and client satisfaction on a global level."
>
> *Mukul Gupta, CEO*

CN underwent a comprehensive audit, which included evaluation of areas such as Web Designing, Web Application Development, Mobile Application Development, and Internet Marketing Services. After the audit looked at all these departments and determined that the processes are in place, CN received this highly respected certification.

ISO 27001 is the international standard that's globally recognized for Information Security Management System (ISMS). This standard helps organizations evaluate whether their data protection policies and norms are in line with international best practices. It serves as a business differentiator and provides companies a competitive edge over their peers. ISO 27001 strengthens the credibility of companies and demonstrates that they comply with legislation and applicable laws.

By earning ISO 27001:2013, CN has proved its:

> Efficiency in executing top-notch risk management strategies
> Ability to secure information in all its forms
> Resilience to cyber crimes
> Adaptability to the evolving data threats
> Capacity to reduce costs while implementing cutting-edge solutions

United Registrar of Systems has issued CN this certification.

About United Registrar of Systems:
