change seemed impossible.”

Established in 2019, the Pangaea Award par Legacy Excellence is a symbol that “art creates what policy cannot – a new vision forward.” The award is a symbol of unity, solidarity, completeness, humanity, compassion, and accountability. Founded around the concept of “all the earth,” Pangaea was the name of our supercontinent that existed over 200 million years ago that started to break apart owing to continental drift. The spirit of the award mirrors the concept of Pangaea as we honor the works of humanitarians that are determined to shift our world back together again. The goal is to honor and support the efforts of these fantastic visionaries while inspiring others to leave a legacy that serves humanity.
