The Florida US Navy Veterans Lung Cancer Advocate is now offering a free service they call the 'list' for a Navy Veteran with asbestos exposure lung cancer. The list documents how, where and when a Navy Veteran with lung cancer or mesothelioma was exposed to asbestos. It is this vital information that becomes the basis for a financial compensation claim and it is vital at they would like to explain anytime at 800-714-0303. <https://Florida.USNavyLungCancer.Com>

The Florida US Navy Veterans Lung Cancer Advocate is proud to help the people with asbestos exposure lung cancer or mesothelioma in Miami, Jacksonville, Tampa, Saint Petersburg, Orlando, Hialeah, Fort Lauderdale, Tallahassee, Port Saint Lucie, Cape Coral or anywhere in Florida.

High-risk work groups for exposure to asbestos now living in Florida include US Navy Veterans, power plant workers, shipyard workers, oil refinery workers, steel mill workers, miners, manufacturing workers, public utility workers, plumbers, welders, electricians, auto mechanics, machinists or construction workers. Most people who are diagnosed in Florida were probably exposed to asbestos in the North East or Midwest. Typically, the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's.

According to the American Cancer Society for nonsmokers who have been exposed to asbestos in their workplace the risk of lung cancer is five times that of unexposed workers.
