

# Fuel Dispenser Global Market Demand, Growth, Opportunities, Top Key Players and Forecast to 2024

*WiseGuyReports.com Presents "Fuel Dispenser Market Research Report By Type (Submersible and Suction) By Product" New Document to its Studies Database*

PUNE, MAHARASTRA, INDIA, November 18, 2019 /EINPresswire.com/ --

After analyzing the global [Fuel Dispenser](#) market's statistical data, the market experts have forecasted that during the forecast period, i.e., from the year 2018 to 2023, the market will grow at around 5.52 percent

Compound Annual Growth Rate. In the year 2015, the market size was valued at USD 1.83 billion. However, by the

end of 2023, it is projected to cross USD 4 million. One of the primary reasons behind the growth of this market is the rapid urbanization across the globe.

The growing number of international and national transportation activities triggered by the rising export and import are some of the other factors that are currently propelling the growth of this market and will continue to drive the market until 2021. Furthermore, some regions, such as the UK, the US, China, and others, are now outsourcing the manufacturing units to different countries. As per the latest market report, governments have issued some friendly trade policies to lower the trade barrier and boost import and export activities.

Furthermore, the introduction of advanced Fuel Dispenser in the market is expected to drive the growth of this market across the globe in the coming years. Talking about some advanced features of Fuel Dispenser, these are barcoding, interactive video screen, magnetic card reader, customer identification keypad, video screen, and more. The dispensers with interactive video screens are generally used to keep the customer entertained while filling the fuel. Besides, key manufacturers are now introducing better quality Fuel Dispenser to offer better customer experience.

Key Players:

Gilbarco Inc

Dover Fueling Solutions

Tatsuno Corporation

Bennett Pump Company

## Market Segmentation Overview

The global Fuel Dispenser market is segmented on the basis of product, type, application, and region. Now, based on the product, it is divided into the self-service dispensers and general dispensers. Among these, the general fuel dispenser is expected to dominate the global market during the forecast period owing to the massive usage of these dispensers. Considering its type, it is split into suction and submersible. The dominating segment is the submersible segment. Such pumps are very easy to use. On the basis of product application, it is divided into diesel, petrol, biofuel, and more. As per the report, the petrol segment is projected to witness the highest market share.

## Regional Market Segmentation Overview

The global market for Fuel Dispenser, on the basis of region, is split into the Middle East & Africa, Western Europe, Asia Pacific, Eastern Europe, South America, and North America. To evaluate the market growth accurately, the market analysis experts have also segmented the market based on the country. Here, it is segmented into Brazil, South Korea, the United States, Mexico, China, the United Kingdom, South & North Africa, Japan, Southeast Asia, GCC Countries, Canada, New Zealand, France, Turkey, and others. The global market is expected to dominate by the Asia Pacific's regional market. Increasing urbanization and the growing number of vehicles are some of the factors that are triggering the market.
