

# 2D Barcode Reader Market Major Manufacturers, Share, Trend, Demand, SWOT Analysis to 2025

---

*New Market Study, Report "2D Barcode Reader Market 2019 Global Market Opportunities, Growth Drivers, Challenges, Strategies and Forecasts 2025" Has been Added.*

PUNE, MAHARASHTRA, INDIA, November 18, 2019 /EINPresswire.com/ -- 2D Barcode Reader Market 2019-2025

New Market Study, Report "2D Barcode Reader Market 2019 Global Market Opportunities, Growth Drivers, Challenges, Strategies and Forecasts 2025" Has been Added on WiseGuyReports.com.

Report Details:

## [Global 2D Barcode Reader Market to See a Positive Outlook](#)

This report provides in depth study of "2D Barcode Reader Market" using SWOT analysis i.e. Strength, Weakness, Opportunities and Threat to the organization. The 2D Barcode Reader Market report also provides an in-depth survey of key players in the market which is based on the various objectives of an organization such as profiling, the product outline, the quantity of production, required raw material, and the financial health of the organization.

2D barcode scanner makers provide with tools that power the industrial industry. 2D barcode scanner are highly deployed in areas where a specific task is dangerous to human lives, super-human strength required for the specific task, and perfection and repeated output of the task is a mandate. Manufacturing equipment generally originated in the early industrial era, and with passing time. Machines have started looking sophisticated, working faster, and more powerful than ever before. Simple programming of semiconductors has been embedded in modern machines, and constant cost reduction has allowed productive manufacturing environment.

A 2D barcode scanner is a process of interpreting two-dimensional barcodes, which store data in two dimensions, rather than in just a series of black and white bars. 2D barcode reader is also called as "Quick Response Code (QR Code)" as they enable fast data access. The reader deciphers the encoded URL, which leads the browser to the appropriate information. The commercial use of 2D barcode reader started in 1981. A 2D bar code reader is employed in various industries to access associated information extensively.

Key markets

When it comes about the important key players of the industry, the names like Honeywell, OCR Canada, Motorola Solutions, Datalogic, Zebra Technologies, Telenor, SATO, Bluebird, Opticon, Denso ADC, NCR, etc. do appear at the front row. This report can provide an insight into their status or hilt over the global 2D Barcode Reader market. At the same time, the report predicts its growth trend in the future and possible strategies. All these factors are speculated to be hugely useful for the investors or the shareholders of the company. Above all, one can also get details regarding the competitor analysis for the above key players of the industry. Rivals or the

challenges are also forecasted for the top players in this domain.

It covers the sales volume, price, revenue, gross margin, manufacturers, suppliers, distributors, intermediaries, customers, historical growth and future perspectives in the 2D Barcode Reader market.

### Market Segmentation

The global 2D Barcode Reader market is analysed for different segments to arrive at an insightful analysis. Such segmentation has been done based on type, application, and region.

Based on type, the global 2D Barcode Reader market is segmented Into QR Codes, Data Matrix Code, PDF417codes, Aztech 2D Barcodes and other

By application, the 2D Barcode Reader market is segmented into Retail, Advertisements, Transportation and Others.

By Detailed Regional Analysis, the global 2D Barcode Reader market is segmented and analyzed based on different aspects to gain a better understanding for the conjecture period. Such segmentation includes regional segmentation, among other aspects such as type, components, end-user industries, and applications. The regional segmentation has been carried out for five regions of Asia Pacific, North America, South America, Europe, and the Middle East & Africa. The report on WGR includes an in-depth study of the 2D Barcode Reader market in each regional segment mentioned above.

### Key Stakeholders

2D Barcode Reader Manufacturers  
2D Barcode Reader Distributors/Traders/Wholesalers  
2D Barcode Reader Subcomponent Manufacturers  
Industry Association  
Downstream Vendors

If you have any special requirements, please let us know and we will offer you the report as you want.

### Industry News:

The main advantage of the image recognition technology as compared to 2D bar codes is that no special software has to be installed. One of the disadvantages of image recognition is that images cannot be recognized because of their image quality. Especially in low light situations images tends to get blurry and grainy. This market is expected to become highly competitive over the forecast period as the market is driven by new technologies and innovations, resulting out of continuous R&D activities by the key players across the industry. Most of the companies are focusing their R&D activities to find low cost and precise products by incorporating new technologies.
