

# CompanionLink Updates for Act! v22 – Featured as Best Paid App on Lifewire

*Act! Mobility Pioneer continues to lead the PC based CRM Market in Features, Convenience and Effective US based Technical Support.*

PORTLAND, OR, US, November 18, 2019 /EINPresswire.com/ -- CompanionLink has released [CompanionLink v9 for Act! v22](#). CompanionLink offers sync services for the PC based Act! CRM. In related news, Lifewire has rated CompanionLink the [#1 Best Paid Android App of 2019](#). Author Jody Emlyn Muelaner focuses on Outlook, but CompanionLink also synchronizes Act! Contacts, Activities, Notes and History to iPhone and Android. The Lifewire article notes the strength of the DejaOffice Today Widget, which puts an agenda view on your Android home page with your appointments, tasks and contacts for today. One tap on the Today widget and you can map your next appointment or send them a text if you are running late.

“Act! is the industry leader for PC based CRM,” says Wayland Bruns, CTO for CompanionLink. “We are pleased to continue our third decade of support as an Act! Add-On Partner. CompanionLink with the DejaOffice App is the solution of choice for people who want mobile CRM. Many CRM vendors say they handle mobile but offer only a browser view of online data and charge a monthly fee for it. With CompanionLink you can update your phone any time, even if it is disconnected, and then when you reconnect the sync will catch up the changes with your PC based Data.”
