

RNA Therapeutics 2020 to Highlight Developments in Delivery Mechanisms

SMi Reports: Delivery Mechanisms will be a key focus of the RNA Therapeutics conference taking place in London on 18th - 20th February 2020.

LONDON, UNITED KINGDOM, November 20, 2019 / EINPresswire.com/ -- SMi's 11th annual RNA Therapeutics conference will take place in London on 18th - 20th February. This year's event will explore the latest discoveries in oligonucleotide-based therapeutics, novel mRNA technology, immunotherapy and vaccines. Developments in delivery mechanism technologies will feature as a key topic.

Register by 29th November to save £200 at: www.therapeutics-rna.com/einpr5

Researchers have seen promising results related to major challenges in the field of [delivery mechanisms](#). RNA Therapeutics 2020 will feature expert presentations related to overcoming these challenges, including, intracellular delivery, stability and immune response activation.

Presentations Highlighting Delivery Mechanisms include:

Optimising Nanoparticle Mediated Delivery of siRNAs to Treat Cancer and Fibrosis
- David Evans, CSO, Sirnaomics, Inc

Design of Safe and Potent [Nucleic Acid](#) Therapeutics
- Pete Lutwyche, CTO, Genevant Sciences

Overcoming Lung Barriers to siRNA Delivery in Cystic Fibrosis through Tailored Lipid/Polymer Hybrid Nanoparticles
-Francesca Ungaro, Associate Professor, University Of Napoli Federico Ii

Aiming at Delivering RNA to Tumours Using Intra-Venous Injections
- Steve Pascolo, Founder and CEO, Miescher Pharma

RNA Therapeutics 2020 will feature presentations by more than 18 industry leaders. In addition

The poster features a dark blue background with glowing yellow-green DNA double helix structures. At the top, it reads "SMi Presents the 11th Annual Conference...". Below that, the title "RNA Therapeutics" is written in large, bold, yellow-green letters. Underneath the title, the dates "19th - 20th February 2020" and the location "London, UK" are listed. At the bottom of the poster, the website "www.therapeutics-rna.com" is displayed in yellow-green text. Below the poster, the text "RNA Therapeutics 2020" is written in a smaller, black font.

to delivery technologies, experts will cover topics, such as, clinical translation, applications of RNA-based drugs for modulation of gene and protein expression and [genome editing](#).
