The market has been categorized into different market segments after extensive research. The market share for the different market segments is presented during the base period from the year 2019 to the year 2025. The data has been analyzed thoroughly to predict the growth of the market share for the different segments during the forecast period from the year 2019 to the year 2025.

Global Stents Market is valued at \$8.43 billion in 2015 and is projected to grow to \$12.13 billion by 2022 growing at a Compound Annual Growth Rate of 5.3%. Rising adoption of drug-eluting stents as a more efficient treatment for coronary heart disease, coupled with growing awareness among patients about stents, is anticipated to fuel the market growth. On the other hand strict regulations for approval of stents, abridged reimbursement and substitute methods and are hampering the market. The innovation of technological advanced products with lower restenosis occurrence rates such as bio-absorbable stents and the existence of high unmet medical needs in emerging Asian countries are some of the future growth opportunities of this market.

Bare metal stents segment anticipated to have a turn down in revenue during the forecast period. Bio-absorbable stents segment is estimated to witness the highest CAGR during the forecast period. By Application, urological stents segment dominates the market and accounts for more than 50% market share. The global stent market is mostly controlled by three players Abbott Laboratories, Medtronic and Boston Scientific. However, small and medium companies from Asia and Europe have a significant share in terms of volume in developing economies.

Some of the key players in the market are Medtronic, Abbott Laboratories, Arterius, B. Braun, Biosensors International, Biotronik, Boston Scientific Corp., C.R. Bard Inc., Celonova Biosciences, Cook Medical, Cordis Corp., Covidien, Elixir Medical Corp., Inspiremd and Kyoto Me.
