PUNE, MAHARASTRA, INDIA, November 22, 2019 /EINPresswire.com/ -- Global [School Furniture](#) Market 2019-2026

## Market Overview:

The global school furniture industry registered a phenomenal growth in the year 2018, with the sales clocking at \$4.3 billion. The industry is expected to proliferate further at a compound annual growth rate of 6.5% during the year 2019-2026. By the year 2026, the industry is expected to be valued at \$6.4 billion. The advancements in design technologies and the rising stress on quality education have worked out in favor of the industry. On the other hand, the increase in spending by schools and the brewing competition among schools has forced schools to reinvent themselves.

When it comes to school furniture, there is a range of factors that affect the growth prospects of the industry. The rising consciousness among schools related to the posture and the pursuit to make the teaching experience seamless has helped the industry grow by leap and bound in recent years. On the other hand, the attempt to blend design with style has helped the sector proliferate further. Furthermore, the increasing demands of parents for the right methodologies and advanced infrastructure is expected to drive growth exponentially.

When it comes to school furniture, there are very factors that inhibit the growth prospects of the industry. The lack of awareness among the parents and schools, non-availability of products, or lack of funding can hamper the growth prospects of the industry. However, the analysts remain positive about the growth prospects, and the industry is expected to grow by leap and bound.
