Downstream Vendors

Industry News:

Employee Referral Software has brought about monumental changes over the years, which has brought about the era of digitalization. Cloud computing is a new model for dispersing IT services to end-users at a lesser cost. Unlike the traditional IT environment which involved investing in servers, licenses, hardware, installation, and so forth, cloud computing is a utility-based and service-oriented model which facilitate outsourcing all the services mentioned above without investing in them. Cloud computing has become a key enabler of growth and businesses of all sizes, and varied industry verticals are embracing cloud solutions at a torrid pace.
