

# Fischer Identity Recognized for Leadership In Identity Governance and Administration

*Fischer Identity has been named as a leader in One World Identity's 2019 Identity Industry Landscape.*

NAPLES, FL, UNITED STATES, November 27, 2019 /EINPresswire.com/ -- Fischer Identity today announced it has been recognized as a leader in Identity Governance and Access Management by One World Identity ([OWI](#)). OWI is a market intelligence and strategy firm focused on identity, trust, and the data economy. Each year, OWI designs an Identity Landscape, providing a comprehensive and holistic view of leaders in the identity space. As the identity industry is rapidly developing, OWI's landscape provides an unparalleled overview of how digital identity applications are evolving and the companies and markets shaping next-generation digital identity.

One World Identity's 2019 Identity Landscape

**FISCHER IDENTITY**

With over 400 companies and 35 market segments, the 2019 Identity Landscape visually depicts a growing and maturing industry. The new, unique landscape format allows companies to touch multiple market segments, reflecting on the dynamic nature of digital identity applications. The

OWI team selected 415 identity companies from a pool of over 2,000 based on several factors:

- Each company must be an identity company OR have a distinguishable line of business focused on identity
- Each company must be at least 3 years old or have raised \$3 million
- Each company must have a functioning product in the market

“Since 2017, the number of identity companies has more than quadrupled, from 500 companies to over 2,000. With the wave of data breaches and privacy scandals, there is a rapid expansion of identity products and solutions. The OWI team interacts with identity companies every day,

from startups to enterprise. We're proud to share the Identity Landscape each year to distill how new companies, products, and solutions are shaping the future of identity.”

–Travis Jarae, CEO and Founder of OWI

Fischer Identity has been recognized as a leader in Identity Governance and Administration, alongside companies such as IBM, Saviynt, One Identity, SailPoint, Oracle, and several others.

“

We are a product and customer driven organization and we will continue to provide the features, functionality and delivery model that is required to deliver cloud-based Identity services.”

*Andrew Sroka, President & CEO of Fischer Identity*
