

Yeasts, Yeast Extracts, Autolysates and Related Products Market analysis by Supply Chain trends and Top Industry players

Global Yeasts, Yeast Extracts, Autolysates and Related Products Market is poised to reach \$12.54 billion by 2022 growing at a CAGR of 8.3% by 2022.

PUNE, MAHARASHTRA, INDIA, December 3, 2019 /EINPresswire.com/ -- [Yeasts, Yeast Extracts, Autolysates and Related Products](#)

Description

The use of fermented beverages in the present lifestyle is in rise. The resultant of which is demanding the need for yeasts in market. The yeast market is in scavenging demand due to the increasing application of yeast and specialty yeast products in the food & beverage industry. Some of the major drivers of market include increasing demand for bakery products, positive trend in alcoholic consumption. However, utilization of food and agricultural waste by-products for Yeast production are the opportunities of the market.

The report starts by characterizing yeast products and by explaining the terminology used in the yeast industry. Production processes are described, mass balances established and investment and production costs discussed. These introductory chapters are followed by extensive descriptions of the different yeast markets. For each product, the rationale for using yeast in a specific application is given, historic consumption data are provided, which together with average market prices allow the calculation of market values and their developments. Forecasts are partly based on historical trends but also consider changes in underlying supply and demand relationships. Market forecasts are provided through 2022, including for volumes, prices and values. The industry section profiles the competitive environment and establishes in quantitative form yeast value chains before major players are characterized.
