When it comes to travel, trust is the most important thing, especially when it comes to deciding with whom to book. Cybercrime and online scams are experiencing dramatic increases and are becoming more sophisticated every year. The annual worldwide damage as a result of cybercrime across all industries is estimated to be in the region of 500 billion — travel and tourism represent about 8% of that. Tourism online crime is also one of the most distressing. The damage is emotional as well as financial. There are many stories about travellers arriving at a rental property found online to discover that it either does not exist or they booked through a copycat site.

Exceptional Villas have issued a couple of tips:

- Always check that the travel company has a high trust score on a reputable review site such as Trust Pilot or Trip Advisor.
