

Internet of Medical Things - the Latest Developments

LONDON, UNITED KINGDOM, December 5, 2019 /EINPresswire.com/ -- With IoT, eHealth, medical devices and technology revolutionising the pharmaceutical industry, SMi are pleased to announce that the inaugural [Disruptive Technologies in Pharma](http://www.disruptivetech-pharma.com) conference will take place in London on the 20th-21st January 2020 and will feature the latest insights within the industry.

Ian Wallace, Device Manager from Novartis, Umair Aslam, e-Health Lead at MSD Norway and Mark Campbell, Freelance Expert, formerly of NICE, will be speaking on [Day Two](#) of the conference.

Sessions include:

“Value Based Healthcare: The Role of Technology and its Implications on Pharma”

- What are the potential implications on related industries such as Pharma, MedTech and others?
- What is the role of technology and e-Health in such a world?
- How does this affect the concept of user and patient centricity?

“Medical Devices in the Digital Era - an Internet of Medical Things”

- Outlining a brief history of medical devices and digitalisation
- Exploring how IoT is revolutionising the industry landscape
- Discussing devices and their role in the emerging healthcare ecosystem
- Assessing the regulatory considerations of connectivity

“International Insight into the Standards for Seamless Adoption of Prescription Digital Therapeutics”

- Overviewing current FDA guidelines relating to PDG
- Gaining insight into European and UK perspectives - MHRA, NICE and EMA guidelines for PDG
- Evidence considerations for PDGs
- Discussing the need for aligning international regulations to ease adoption of PDG
- The importance of technical standards for acceptance of PDGs

The speaker list and agenda can be viewed at www.disruptivetech-pharma.com/einpr7
