Alfie Best

Property is the love of my life. Now I want to give something back and help keep the dreams alive of many amazing hard-working people in the UK, that wish to get themselves on the property ladder. We must keep the property ownership dream alive for tomorrow.

I have worked out a strategy that could guarantee our new students will be able to buy their first property within 24 months of working with myself and my property training team, but they will need to possess a positive can-do attitude and commit to the process. Our academy offers four stages of growth personal and wealth property development.

- 1 - First Time Buyer
- 2 - Existing Homes Owners Portfolio Growth
- 3 - Advanced Investors and Developers

Alfie Best Launches UK Property Growth Training Academy

4 - Global Property Consortium

We are giving 50 inspired people an opportunity to attend my first-time home buyer's property event launch in February 2020, where I will train and coach them, providing them with our Alfie Best Property Growth Academy Blueprint for property ownership success.

We will then select the most inspired people during the event to work with our elite property training and investment team in what I am calling, Alfie Best Property Growth Academy. We will work together over a 24-month period to support them fulfil their dreams. I am inwardly confident that one of my students will secure their first home outright, within 6 months of joining my personal property training academy.

Can Alfie Best's Property Growth Academy Help Solve The UK Housing Crisis ?

Alfie Best has grown an international property empire valued at over £700 million pounds. There are not enough houses and the UK housing market is broken! So why does Alfie think that he has found a solution that could help the future of the UK's housing market growth and help with affordability?

We are not building enough affordable new homes in the UK. With the poor availability of new homes being built, the first time buyer market, which is key to securing future generations enjoying home ownership is at risk.

74% of Would-Be First Time Buyers Believe That The Dream of Home Ownership Is Already Over I Want To Help Change That

There is a solution to low costs affordable housing within the park home industry and by educating and training first time buyers, to show them how they can work full time and build a residual income, leveraging existing traditional brick built properties for the deposit on their first home. I have created a property growth training academy and on the Feb 5th 2020, I will be taking on my first 50 property growth students.

Best Wishes Alfie Best
