

# PURPLE HEART HOMES TO ASSIST 90-YEAR OLD SERVICE-CONNECTED DISABLED VETERAN

*Renovation will provide veteran a safer, more accessible home*

STATESVILLE, NORTH CAROLINA, USA, December 5, 2019 /EINPresswire.com/ -- Purple Heart Homes (PHH – [www.phhusa.org](http://www.phhusa.org)) is pleased to announce that it is travelling to Boston, Massachusetts to provide renovation services to a Service Connected Disabled Veteran. Two staff members from the Statesville, NC headquarters have traveled through difficult winter weather conditions to make this mission a reality. The renovation will include building a ramp to enable the recipient, Milton Moffett, easy access into and out of his home. Mr. Moffett served in World War II, the Korean War, the Vietnam War, and the Cold War. Now retired, he is unable to navigate his steps into and out of his home due to severe vertical deterioration.

“We are honored to be able to assist this distinguished Veteran with needed repairs,” said John Gallina, Co-Founder and CEO of Purple Heart Homes. “It’s through the generous funding support of donors as well as volunteers that enable us to renovate this deserving Service Connected Disabled Veteran’s residence, offering him safe access into and out of his home, which is the very least our Veterans should be able to enjoy.”

More than 4 million Service Connected Disabled Veterans live in the United States today (U.S. Census Bureau, <https://www.census.gov/newsroom/facts-for-features/2017/veterans-day.html>), and over 50 percent of Veterans 65 years of age and older live in homes built in the 1950’s and 1960’s that often are no longer suited to meet their needs because of their ages and disabilities. Purple Heart Homes has two programs: Veterans Aging in Place (VAIP) and The Veterans Home Ownership Program (VHOP). From building a ramp for wheelchair-bound Veterans to providing home ownership opportunities to Veterans with physical as well as invisible injuries, Purple
