SANTA CRUZ, CA, UNITED STATES, December 5, 2019 /EINPresswire.com/ -- Chances are you have some serious [coffee](#) drinkers on your holiday gift list. Wouldn't it be nice to make them happy (SO happy!) and introduce them to the newest trend in specialty coffee at the same time?

For thoughtful gift ideas that check all the boxes, look no further than Steeped Coffee (www.SteepedCoffee.com). The innovative startup is committed to premium coffee, convenience, and environmental stewardship in equal measure. So, when you introduce the coffee lovers in your life to Steeped, it's a win-win for them and the planet.

What sets Steeped Coffee apart is it's a proprietary brewing method that does not require machines or brewing equipment, made much like tea. The coffee comes in single-serve bags that are nitro-sealed to ensure absolute freshness. It's a uniquely "unplugged" coffee experience, from the award-winning packaging made using compostable and renewable materials to the non-GMO filters. All it takes to brew a perfect cup is hot water and a few minutes, and at the end of the day, there are no wasteful plastic pods accumulating in waterways or landfills.

Best of all, each Steeped Pack contains hand-roasted, ethically sourced, Direct Trade coffee that's precision ground to showcase the distinctive flavor profile of every crafted blend. Whether you're looking for light, medium, dark, French roast, or even decaf, there's something for you.

So instead of racking your brain for the perfect gift, visit the Steeped website and make someone's day while also being eco-conscious! With plenty of one-of-a-kind items, it's the simplest way to give friends, family, and coworkers the gift of Coffee Without Compromise this holiday season.
