□ About "GENE A.I.dols"

"GENE A.I.dols" is a brand new experiential creator platform where anyone could be a "A.I.dols producer" which might also turn out to be a new type of job. A.I.dols are born from digital gene written on the blockchain with a help of AI technology. Let's make our A.I.dols debut by preparing them an attractive look, providing them with knowledge and training them the way to talk.

In the process of our technology and service development, we plan to offer several stages, commencing with SNS, videos, games, VR and so on, for A.I.dols to play outstandingly. If your A.I.dol grows in popularity, you might receive profits from selling their items and contents to the fans or even get job offers from companies.

Rather than playing a producer roll, there are some more ways to be involved in "GENE A.I.dols".

- Support your favorite A.I.dol as a "Fan".
- Draw illustration, videos and novels for them as an "Artist".
- Create your own original product using A.I dols as a "Developer"

□ About "A.I.dols Codebase"

"A.I.dols Codebase" is a creator platform where you can create a realistic A.I.dol that is nearly indistinguishable from a human-being using digital gene. It is also a place where users manage and give lessons to A.I.dols by being a "producer". Depending on the producer's ability, opportunities for A.I.dol to get popular increases.

□How to enjoy A.I.dols Codebase

The launch of official version offers two appearance creating functions. In addition, created A.I.dol will be tokenized on Ethereum blockchain as Non-Fungible Token(NFT) so, it is also possible to trade them between producers through third-party website. Even if our service terminates, you can carry its token as personal assets.

1. A.I.dol Generator

A.I.dol Generator is a function to create A.I.dol from a scratch.

A.I.dol with a random digital gene will appear in front of you. Appearance created based on its gene is one and only in the whole world and it's yours.

2. Fusion

Fusion is a function to combine A.I.dols together.

Using this combining function, another different A.I.dol with a new appearance will be created, taking over features from original two A.I.dols. Depending on your own choice, you can select which A.I.dols to combine and create an A.I.dol of your own.

Please look forward to our upcoming contents such as "Virtual talent agency" function too.
