

# Panorama Orthopedics & Spine Center Partners with Radix Health to Boost Patient Experience

ATLANTA, GA, UNITED STATES, December 10, 2019 / EINPresswire.com/ -- [Radix Health](#), Inc., provider of patient access technologies, today announced that it will partner with [Panorama Orthopedics & Spine Center](#), a trusted leader in orthopedic care in the Denver Metropolitan Area. Radix Health's DASH suite of software solutions will allow Panorama to expand upon its patient experience initiative.

Radix Health's DASH software helps medical groups, health systems, and hospitals across the United States deliver a frictionless patient experience through precise provider matching, online patient self-scheduling, omnichannel patient outreach, and more.

Panorama elected to implement [DASHself](#) to give patients the option to book anytime and from anywhere using a mobile device, PC, or tablet. The solution will integrate directly into the group's website, enhancing scheduling capabilities.

“

DASHself manages the complexities and integration required in scheduling for a large diverse provider group... The initial feedback has been overwhelmingly positive.”

*Robin Louks, Director of Patient Experience*

“Panorama is deeply committed to providing an exceptional patient experience. A key component of that experience is continuously improving access to care.” says Robin Louks, Director of Patient Experience. “DASHself manages the complexities and integration required in scheduling for a large diverse provider group. For our patients, DASHself is incredibly user friendly and seamless – guiding them to confidently schedule the right appointment with the right provider at a time and location

that is best for them - without ever picking up the phone. The initial feedback has been overwhelmingly positive.”

“Panorama is known for its quality of care and for going above and beyond to serve its patients,” says Radix Health CEO, Dr. Arun Mohan. “We are excited to partner with them as they further their mission of providing unparalleled patient access and customer service.”
