*WiseGuyReports.com Presents "Global Wireless POS Terminals Market Professional Survey Report 2019" New Document to its Studies Database*

PUNE, MAHARASTRA, INDIA, December 11, 2019 /EINPresswire.com/ --

[Wireless POS \(point of sale\) terminals](#) are handheld devices that allow a user to accept credit or debit card payments instantly and through a secure channel. It is ideal for compact retail stores that are experiencing a space crunch and for the delivery or transportation sector that requires payments while on the go.

The global wireless POS terminals market is expected to grow at a CAGR of 13% and attain a valuation of USD 12.9 billion for the forecast period. The growth is a reflection of the expansion of eCommerce, which has given a boost to the transport and logistics industry.

Further, with the adoption of chip-embedded debit or credit cards paired with PIN security, consumers are more confident while making payments through wireless POS terminals. Other factors that have contributed to the growth of this market are improved connectivity, technological advancements, enhanced security, increased connectivity to peripheral devices, and the portable and affordable nature of this payment method.

Since wireless POS terminals maintain a record of the transactions, it is also extremely beneficial to sellers as they no longer have to depend on cash register entries. Additionally, it offers a pleasant customer experience.
