The global [point-of-care diagnostics devices and equipment market](#) is expected to grow to \$11.35 billion at a rate of about 5.1% through 2022. The rising incidence of chronic diseases, like diabetes, rheumatism, or cancer is increasing steadily worldwide due to poor lifestyle choices and increasing obesity, thus driving the growth of POC

devices and equipment market. The POC diagnostics devices and equipment market is expected to slow down due to stringent regulatory policies, which increases the gestational period before the product enters market.

Point-of-care diagnostics devices and equipment are designed to aid physicians in performing medical diagnostic testing at or near the point of care, for immediate knowledge on diseases or conditions. Point-of-care diagnostics are segmented into cardio metabolic monitoring kits, infectious diseases testing kits, cardiac and cancer markers excluding blood glucose monitoring kits.

The global point-of-care diagnostics devices and equipment market is further segmented based on type and geography.

By Type - The point-of-care diagnostics devices and equipment market is segmented into infectious disease testing kits, cardio metabolic monitoring kits, cholesterol testing kits, pregnancy and fertility tests kits, tumor/cancer markers, urinalysis testing kits, hematology testing kits, drugs of abuse testing kits, fecal occult testing kits, and others.

By Geography - The global point-of-care diagnostics devices and equipment is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, the North America point-of-care diagnostics devices and equipment market accounts for the largest share in the global point-of-care diagnostics devices and equipment market.

Trends In The Point-of-Care Diagnostics Devices And Equipment Market

Over-the-Counter (OTC) testing is being termed as an important trend driving the growth of point of care diagnostics market. FDA has approved OTC test kits for cholesterol, fecal occult blood, pregnancy and HIV/HCV. This method would improve the access to testing and early detection of

the disease.

Potential Opportunities In The Point-of-Care Diagnostics Devices And Equipment Market
With increase in positive economic outlook, increasing population and increasing awareness about healthcare, the scope and potential for the global point-of-care diagnostics devices and equipment market is expected to significantly rise in the forecast period.

Major players in the market are Abbott, F. Hoffmann-La Roche, Siemens Healthineers, Danaher and Beckman Coulter.

Point-of-Care Diagnostics Devices And Equipment Global Market Report 2019 is one of a series of new reports from The Business Research Company that provides point-of-care diagnostics devices and equipment market overviews, analyzes and forecasts point-of-care diagnostics devices and equipment market size and growth for the global point-of-care diagnostics devices and equipment market, point-of-care diagnostics devices and equipment market share, point-of-care diagnostics devices and equipment market players, point-of-care diagnostics devices and equipment market size, point-of-care diagnostics devices and equipment market segments and geographies, point-of-care diagnostics devices and equipment market trends, point-of-care diagnostics devices and equipment market drivers and point-of-care diagnostics devices and equipment market restraints, point-of-care diagnostics devices and equipment market's leading competitors' revenues, profiles and market shares. The point-of-care diagnostics devices and equipment market report identifies top countries and segments for opportunities and strategies based on market trends and leading competitors' approaches.

Where To Learn More

Read Point-of-Care Diagnostics Devices And Equipment Global Market Report 2019 from The Business Research Company for information on the following:

Markets Covered: global point-of-care diagnostics devices and equipment market

Data Segmentations: point-of-care diagnostics devices and equipment market size, global and by country; historic and forecast size, and growth rates for the world, 7 regions and 12 countries

Point-of-Care Diagnostics Devices And Equipment Market Organizations Covered: Abbott, F. Hoffmann-La Roche, Siemens Healthineers, Danaher and Beckman Coulter

Regions: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

Time Series: Five years historic (2014-18) and forecast (2018-22).

Other Information And Analyses: PESTEL analysis, point-of-care diagnostics devices and equipment market customer information, point-of-care diagnostics devices and equipment market product/service analysis – product examples, point-of-care diagnostics devices and equipment market trends and opportunities, drivers and restraints, key mergers and acquisitions, key metrics covered: number of enterprises, number of employees, global point-of-care diagnostics devices and equipment market in 2019 - countries offering most new opportunities

Sourcing and Referencing: Data and analysis throughout the report are sourced using end notes.

Strategies For Participants In The Point-of-Care Diagnostics Devices And Equipment Industry: the report explains a number of strategies for companies in the point-of-care diagnostics devices and equipment market, based on industry trends and company analysis.

Opportunities For Companies In The Point-of-Care Diagnostics Devices And Equipment Sector: The report reveals where the global point-of-care diagnostics devices and equipment industry will put on most \$ sales up to 2022.
