

Global Clozapine Market Estimated to Reach US\$411 mn by 2025 As Rate of Drug Abuse Rises

LOS ANGELES, CALIFORNIA, UNITED STATE, December 11, 2019 /EINPresswire.com/ -- QY Research recently published a research report, titled, "[Global Clozapine Market Professional Survey Report 2019](#)." According to the report the global clozapine market was valued around US\$306 mn in 2018 and is estimated to reach US\$411 mn by the end of 2025, rising at a CAGR of more than 4% during 2019-2025.

Increasing Cases of Schizophrenia to Contribute in Market Growth

Global clozapine market is projecting a substantial growth in the healthcare sector owing to its increasing uses in treating psychological ailments. Clozapine is used to treat patients with schizophrenia, schizoaffective disorder, and others. This antipsychotic medication helps restore balance of neurotransmitters by rebalancing dopamine and serotonin to improve thinking, mood, and behaviour. It helps in treating hallucinations, delusions, disorganized thinking, troubled speaking, and other abnormal behaviours. The medication is very effective as it can help to prevent suicide by decreasing hallucinations and other dysfunctions among patients by stimulating clear, positive thinking. The out of this drug is seen via reduced nervousness in patients.

The growing rate of drug abuse such as cannabis and opioids can lead to degeneration of mental faculties, which requires intervention. In such cases, clozapine is used to treat both schizophrenia and drug addiction. In the light of these factors, the analysts project that the market will witness a steady growth rate.

Easy Administration to Boost Oral Segment

Clozapine is usually administrated orally as the tablet easily dissolves upon consumption. Hence, the oral segment is expected to report drastic growth in the forecast years.

North America to Lead Global Market

North America is expected to dominate the market owing to the rising cases of schizophrenia in this region due to drug abuse. The presence of pharmaceutical companies will also fuel the market. Asia Pacific will also grow significantly due to rising awareness about psychological disorders and growing investments from government organisations in the healthcare sector.
