The nut ingredients are also popular due to their significant role in reducing weight and providing longer life. The prevention of chronic diseases like cancer is also attributed to the consumption of nut ingredients. The nuts contain omega-3 fats that are a good alternative of meat hence leading to the preferred consumption by the vegetarians. These nuts are seed kernels that are used in cooking or eating as a snack. For a low-carb diet, the nut ingredients are a rich source of healthy food diet.

The global nut ingredient market report analyses the growing market value for the product by estimating a forecast period from 2019 to 2025. The report also focuses on the market value and volume of the global nut ingredients market at the global, regional and company level. The historical data and future growth prospects have also been presented based on a global perspective of the nut ingredient market. The nut ingredients are an important source of nutrients as they offer both taste and health benefits for consumers. This, in turn, is leading to a rise in the global nut ingredient market.

Market Segmentation

The recent development trends and the rising awareness among consumers relating to health and lifestyle and the increase in the disposable incomes of the population are some of the factors that are driving the growth of the global nut ingredient market. The global market has been segmented based on product type and application of the nut ingredient.

By product type coverage, the global nut ingredients market has been split into:

- Cashews
- Almonds
- Walnuts
- Hazelnuts
- Others

And on the basis of application, the nut ingredient market has been classified into:

- Bakery Products
- Confectioneries
- Snacks & Bars
- Dairy Products
- Others (Salads & Sauces, Desserts and Etc.)

Regional Overview

Regions like North America, Southeast Asia, Europe and countries like Japan, China, and India are among the major hubs for the growth and demand for the nut ingredients. The production, capacity, revenue, price and concentration degree of nut ingredients have been mentioned in the report. The expansion plans, manufacturing plants distribution and the commercial production dates have also been highlighted in the market report. Moreover, the high demand for roasted nuts across the global market is also showcasing an upward trend in the product. Many key players are focusing on the production of roasted nuts. This, in turn, is escalating and providing positive opportunities for global nuts manufactures.

Industry News

Pip & Nut will be launching three range of nut butter cups in the UK using peanuts and almonds. It will be available in three flavours, i.e., the milk chocolate peanut butter cups, dark chocolate peanut butter cup and dark chocolate almond buttercup. These products will be free from gluten and palm oil.
