The global microbiology diagnostic devices and equipment market was valued at about \$4.4 billion in 2018 and is expected to grow to \$4.52 billion at a CAGR of 0.7% through 2022. The growth in the microbiology diagnostic devices and equipment market is due to increasing funding of public and private investments in the medical devices. However, the market for microbiology diagnostic devices and equipment is expected to face certain restraints from

several factors such as unfavorable regulatory scenarios and unstable global market.

The microbiology diagnostics devices and equipment market consist of sales of microbiology diagnostics devices and equipment and related services. Microbiology diagnostics devices and equipment are used to diagnose infectious diseases by examining pathogens. These instruments include incubators, autoclave sterilizers, anaerobic culture systems, blood culture systems, gram strainers, microscopes, mass spectrometers, molecular diagnostic instruments, reagents pathogen specific kits and general reagents.

The global microbiology diagnostic devices and equipment market is further segmented based on type and geography.

By Type - The microbiology diagnostic devices and equipment market is segmented by type into, instruments, and microbiology analyzers.

By Geography - The global microbiology diagnostic devices and equipment is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, the North American microbiology diagnostic devices and equipment market accounts for the largest share in the global microbiology diagnostic devices and equipment market.

Trends In The Microbiology Diagnostic Devices And Equipment Market

Next Generation Sequencing (NGS) technologies are increasing their prevalence in the microbiology diagnostic devices market due to its cost effectiveness, sensitivity to detect low-frequency variants and comprehensive genomic coverage. Next Generation Sequencing (NGS) or

high throughput sequencing or Massively Parallel Sequencing (MPS) is a method of sequencing genomes with an ability to sequence hundreds to thousands of genes or gene regions and capability to detect novel resistance genes (ARG) in bacteria.

Potential Opportunities In The [Microbiology Diagnostic Devices And Equipment Industry](#)

With increased size of the aging populations, and emerging markets growth, the scope and potential for the global microbiology diagnostic devices and equipment market is expected to significantly rise in the forecast period.

Major players in the microbiology diagnostic devices and equipment market include Becton, Dickinson and Company, Biomerieux, Danaher, Thermo Fisher Scientific and Abbott Laboratories.

Microbiology Diagnostic Devices And Equipment Global Market Report 2019 is one of a series of new reports from The Business Research Company that provides microbiology diagnostic devices and equipment market overviews, analyzes and forecasts microbiology diagnostic devices and equipment market size and growth for the global microbiology diagnostic devices and equipment market, microbiology diagnostic devices and equipment market share, microbiology diagnostic devices and equipment market players, microbiology diagnostic devices and equipment market size, microbiology diagnostic devices and equipment market segments and geographies, microbiology diagnostic devices and equipment market trends, microbiology diagnostic devices and equipment market drivers and microbiology diagnostic devices and equipment market restraints, microbiology diagnostic devices and equipment market's leading competitors' revenues, profiles and market shares. The microbiology diagnostic devices and equipment market report identifies top countries and segments for opportunities and strategies based on market trends and leading competitors' approaches.

Where To Learn More

Read Microbiology Diagnostic Devices And Equipment Global Market Report 2019 from The Business Research Company for information on the following:

Markets Covered: global microbiology diagnostic devices and equipment market

Data Segmentations: microbiology diagnostic devices and equipment market size, global and by country; historic and forecast size, and growth rates for the world, 7 regions and 12 countries

Microbiology Diagnostic Devices And Equipment Market Organizations Covered: Becton, Dickinson and Company, Biomerieux, Danaher, Thermo Fisher Scientific and Abbott Laboratories.

Regions: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

Time Series: Five years historic (2014-18) and forecast (2018-22).

Other Information And Analyses: PESTEL analysis, microbiology diagnostic devices and equipment market customer information, microbiology diagnostic devices and equipment market product/service analysis – product examples, microbiology diagnostic devices and equipment market trends and opportunities, drivers and restraints, key mergers and acquisitions, key metrics covered: number of enterprises, number of employees, global microbiology diagnostic devices and equipment market in 2019 - countries offering most new opportunities

Sourcing and Referencing: Data and analysis throughout the report are sourced using end notes.

Strategies For Participants In The Microbiology Diagnostic Devices And Equipment Industry: The report explains a number of strategies for companies in the microbiology diagnostic devices and equipment market, based on industry trends and company analysis.

Opportunities For Companies In The Microbiology Diagnostic Devices And Equipment Sector: the report reveals where the global microbiology diagnostic devices and equipment industry will put on most \$ sales up to 2022.

Interested to know more about The Business Research Company?

The Business Research Company has published over 300 industry reports, covering over 2400 market segments and 56 geographies. The reports draw on 150,000 datasets, extensive secondary research, and exclusive insights from interviews with industry leaders. Here is a list of reports from The Business Research Company similar to Microbiology Diagnostic Devices And Equipment Global Market Report 2019:

[Portable Ultrasound Devices Market By Segments \(Mobile Ultrasound Devices And Handheld Ultrasound Devices\), By End User \(Cardiovascular, Obstetrics / Gynecology, Gastro, Musculoskeletal And Point Of Care / Others\), By Trends, By Geography - Global Forecasts To 2022](#)

[Medical Sensors Market](#) By Type (Diagnostics And Imaging, Monitoring And Therapeutics), By Products (MRI And X-Ray Equipment, Pacemakers And Defibrillators) And By Regions - Global Industry Analysis, Size, Share, Growth, Trends, And Forecast To 2023.
