management and achieve greater control over their spend. Mintec works with many of the world's largest food brands, enabling them to implement more efficient & sustainable procurement strategies.

Spencer Wicks, CEO of Mintec, said: “Mintec is very pleased to be recognised for its achievements in 2019 in delivering cutting-edge technology solutions that help our customers deliver digital transformation to their business. It is especially pleasing that this recognition comes from an organisation with a strong connection to the food and beverage sector.”

About Food Logistics FL100+

Now in its 16th year, the FL100+ features software and technology companies that specialise in products designed to address the unique challenges of the food and beverage supply chain. This

list offers an inside look at companies whose products and services ensure efficient transportation and warehousing, minimise operational waste, facilitate safe operations and assure regulatory compliance.

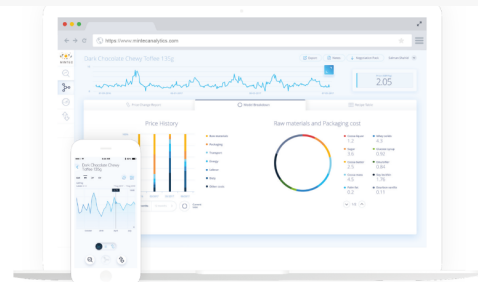

#### About Mintec

The online platform provides access to food price data and insight that helps customers increase price visibility, improve budget management and control their spend. Together with providing access to over 14,000 commodity prices, the platform gives F&B professionals access to a suite of analytical tools. These empower them to understand their supplier prices better, analyse their spend behaviour and ensure visibility to manage budgets and control the cost of goods sold.
