US Navy Veteran 21

Individuals in the state of Nebraska with mesothelioma could have been exposed to asbestos while serving in the US Navy or while working at a power plant, as a plumber, a boiler technician, as an auto repairman, as an electrician, or in the construction industry. In most cases, the exposure to asbestos took place in the 1950's, 1960's, 1970's, or 1980's. Mesothelioma typically takes three to five decades to develop.
