The [global anesthetics market](#) was valued at about \$9.32 billion in 2018 and is expected to decline to \$9.13 billion at a CAGR of -0.5% through 2022. The increase in the number of surgeries is one of the major drivers of the anesthetics

market due to the applications of anesthetic drugs during surgical procedures. This rise is mainly due to increasing incidents of injuries and accidents that require surgeries.

The anesthetics market consists of sales of drugs that cause a relaxing sensation to calm patients during surgery and remove the sensation of pain. These drugs are used to give a sense of calm to patients through muscle relaxation which also causes amnesia. The anesthetics market is divided into general anesthetics, regional anesthetics and local anesthetics.
