The global [surveillance technology market](#) is expected to grow to \$42.38 billion at a rate of about 11.5% through 2022. The effectiveness of surveillance technology in reducing crimes is one of the key drivers for the surveillance technology market. However, privacy concerns associated with the use of surveillance systems acts as a major restraint on the surveillance technology market.

The surveillance technology market consists of sales of surveillance technology and related services. Surveillance technologies are used to monitor a place, person or object in a particular geographical location. Surveillance systems are utilized for monitoring activities of workers, traffic, and potentially illegal activities. Surveillance technology includes surveillance systems based on video, audio or biometrics.

## Trends In The Surveillance Technology Market

Integration of cloud-based surveillance technology with edge computing is an important trend in the surveillance technology market. It improves the performance of delay-sensitive applications such as real-time human surveillance by performing computation near the source and destination.

## Potential Opportunities In The Surveillance Technology Market

With smart cities, an increase in economic growth, and technological developments, the scope

and potential for the global surveillance technology market is expected to significantly rise in the forecast period.

Major players in the market are Dahua Technology, Axis Communications, Panasonic, Honeywell Security and Bosch Security Systems.

Surveillance Technology Global Market Report 2019 is one of a series of new reports from [The Business Research Company](#) that provides surveillance technology market overviews, analyzes and forecasts surveillance technology market size and growth for the global surveillance technology market, surveillance technology market share, surveillance technology market players, surveillance technology market size, surveillance technology market segments and geographies, surveillance technology market trends, surveillance technology market drivers and surveillance technology market restraints, surveillance technology market's leading competitors' revenues, profiles and market shares. The surveillance technology market report identifies top countries and segments for opportunities and strategies based on market trends and leading competitors' approaches.

#### Where To Learn More

Read Surveillance Technology Global Market Report 2019 from The Business Research Company for information on the following:

Markets Covered: global surveillance technology market

Data Segmentations: surveillance technology market size, global and by country; historic and forecast size, and growth rates for the world, 7 regions and 12 countries

Surveillance Technology Market Organizations Covered: Dahua Technology, Axis Communications, Panasonic, Honeywell Security and Bosch Security Systems

Regions: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

Time Series: Five years historic (2014-18) and forecast (2018-22).

Other Information And Analyses: PESTEL analysis, surveillance technology market customer information, surveillance technology market product/service analysis – product examples, surveillance technology market trends and opportunities, drivers and restraints, key mergers and acquisitions, key metrics covered: number of enterprises, number of employees, global surveillance technology market in 2019 - countries offering most new opportunities

Sourcing and Referencing: Data and analysis throughout the report are sourced using end notes.

Strategies For Participants In The Surveillance Technology Industry: the report explains a number of strategies for companies in the surveillance technology market, based on industry trends and company analysis.

Opportunities For Companies In The Surveillance Technology Sector: The report reveals where the global surveillance technology industry will put on most \$ sales up to 2022.
