

# HIPPO Multipower Sign Up to Sponsor Future Soldier Technology 2020

*SMi Group Reports: The Future Soldier Technology Conference and Focus Day returns to London on the 9th, 10th and 11th March, sponsored by HIPPO Multipower*

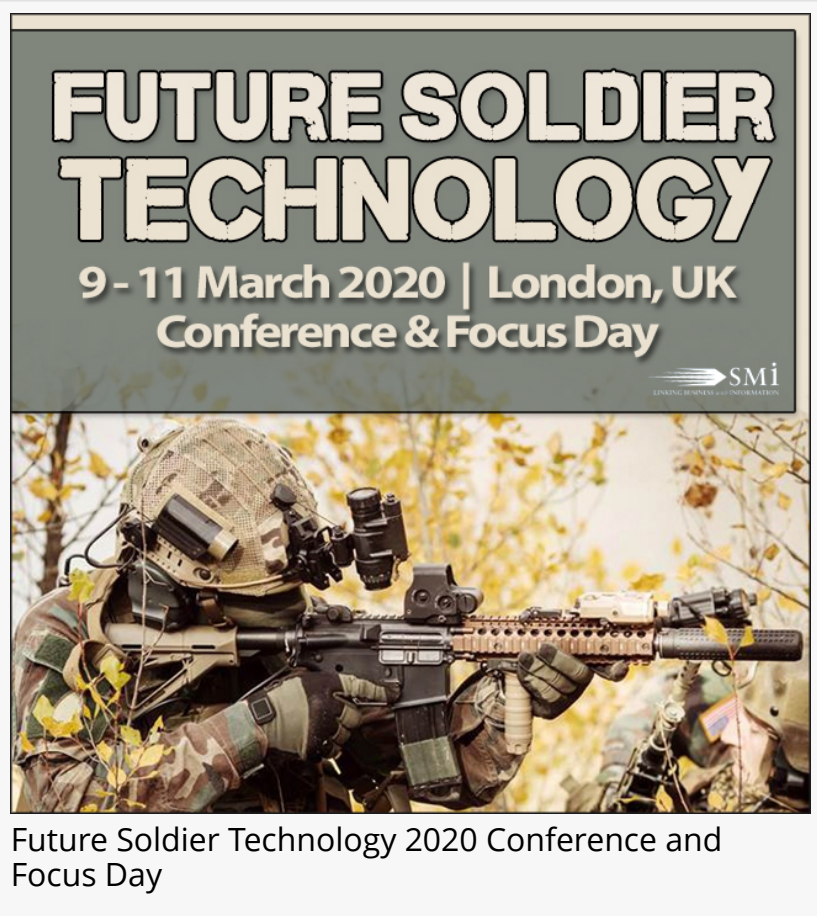

LONDON, LONDON, UNITED KINGDOM, January 9, 2020 /EINPresswire.com/ -- Since 2016, HIPPO Multipower has been developing the amphibious All Terrain Support Vehicle (ATSV). The vehicle can carry over 750 kg on the cargo deck in addition to 300 kg in the crew area - sufficient to support a dismounted rifle platoon for 72 hours, allowing soldiers to "fight light." The ATSV also has superb strategic, operational and tactical mobility, excellent terrain accessibility in jungles, swamps, mountains, mud and desert, the ability to power all of a platoon's equipment and recharge batteries and is drive by wire, allowing it to be configured for robotic operation.

With this in mind, SMi Group are delighted to announce HIPPO Multipower as the latest sponsor for [Future Soldier Technology 2020](#) - set to convene in London on the 10th and 11th March 2020.

For those interested in attending [Future Soldier Technology](#), there is an early bird offer with a £100 saving for conference bookings made by 31st January: [www.futuresoldiertechology.com/EINPR5](http://www.futuresoldiertechology.com/EINPR5)

As the leading event dedicated to soldier modernisation, Future Soldier Technology will explore how emerging technologies and materials are used to overcome challenges in soldier modernisation programmes around the world, presenting the latest and most innovative information for capability and procurement experts to leverage for their projects. Featuring 23 expert speakers presenting their programme priorities, challenges and successes, delegates will leave the conference with actionable intelligence.

In addition to the main conference, there will also be a [pre-conference focus day](#) on the 9th of March, focusing on Dismounted Soldier Situational Awareness. This will enable technical experts, military end users and solution providers to discuss the latest developments in communication digitisation, advanced autonomous software and systems and dismounted unmanned sensor

The banner features a dark grey background with the text "FUTURE SOLDIER TECHNOLOGY" in large, bold, white, sans-serif font. Below this, in a smaller white font, it reads "9 - 11 March 2020 | London, UK Conference & Focus Day". In the bottom right corner, there is a logo for SMi Group, consisting of the letters "SMi" in a white font next to a stylized white arrow pointing to the right. Below the text, there is a photograph of a soldier in full combat gear, including a helmet with a night vision device and a rifle, in a natural outdoor setting with trees and foliage.
