Data Center Rack & Enclosure Market 2020 Global Analysis, Opportunities, Key Applications and Forecast to 2025

This report covers market characteristics, size and growth, segmentation, regional breakdowns, competitive landscape, market shares, trends and strategies

PUNE, INDIA, January 15, 2020 /EINPresswire.com/ -- The data center rack & enclosure market is anticipated to witness a considerable growth over the coming years owing to the rise in the modernization and construction of new data centers by managed hosting and colocation providers. The market is witnessing an increasing requirement to provide enhanced protection and support to critical IT infrastructure and facilities. To protect the sensitive data, several providers and operators are increasingly investing in safeguarding the equipment. For instance, the rack security developed by the manufacturers operating in the industry is fitted with advanced features such as biometrics and video surveillance. Moreover, the cabinets in facilities are also protected with readers, which can read fingerprints and the cabinets are sealed inside the steel frames secured by cameras that are built with motion sensors on the top of every rack and can be monitored from the control rooms. Such factors are revolutionizing and driving the market growth.
