According to the North Carolina Mesothelioma Victims Center, "The biggest mistake a person with mesothelioma in North Carolina or their family can make is to start ordering 'free' books, kits, guides and or calculators- because these are tactics law firms use to identify people with mesothelioma. Frequently the person with mesothelioma is unprepared for the tidal wave of lawyer phone calls ordering something 'free' can cause as we would be happy to discuss at 800-714-0303.

"If you call us at 800-714-0303 and tell us a little bit about how the person with mesothelioma was exposed to asbestos, we will have attorney Erik Karst call you back so you can discuss compensation with a national expert. If you like Erik-he or one

of his colleagues will come to your home for a more in-depth conversation about how, where and when the person's asbestos exposure took place. It is this information that becomes the basis for a mesothelioma compensation claim and it is incredibly important-as we would be happy to discuss anytime."
