

# Automatic Checkweigher Global Market Growth Insights to 2027 - Minebea Intec, Anritsu, Cardinal, Espera-Werke

*Automatic Checkweigher Market to 2027 - Global Analysis and Forecasts By Type, Technology, End-user Industry*

PUNE, INDIA, January 20, 2020 /EINPresswire.com/ -- The global [automatic checkweigher market](#) accounted for US\$ 235.2 Mn in 2018 and is expected to grow at a CAGR of 4.6% over the forecast period 2019–2027, to account for US\$ 342.4 Mn by 2027.

The checkweighers made up of stainless steel components can withstand harsh conditions and repeated contact with water. Other materials can be painted with the materials that can impart resistance to damages, but these will not hold up to unrelenting or washdown environments. Most of the load cells are made of aluminum. These operate well and cost less than stainless steel load cells, but they are not designed to handle contact with water or other corrosives. They should not be used in potentially corrosive environments. One of the most common causes of poor accuracy is abuse to the checkweigher. Any employee working with and around checkweighers can unknowingly harm the checkweigher by stepping on a weigh platform, placing too much torque on a load cell by tightening a bolt or twisting a weight belt, and improperly cleaning the checkweigher, among others.

## The List of Companies

1. Minebea Intec GmbH
2. Anritsu Corporation
3. Cardinal
4. Espera-Werke
5. Hardy Process Solutions, Inc.
6. Mettler-Toledo International Inc.
7. Thermo Fisher
8. Wipotec-Ocs GmbH
9. Yamato Scale Co., Ltd.
10. Zongshan Easyweigh Equipment Co., Ltd.

## GLOBAL Automatic Checkweigher Market SEGMENTATION

### Global Automatic Checkweigher Market - By Type

- Standalone Systems
- Combination Systems

### Global Automatic Checkweigher Market - By Technology

- Electromagnetic Force Restoration
- Strain Gauge

### Global Automatic Checkweigher Market - By End User

- Food and Beverages
- Pharmaceutical
- Consumer Products
- Cosmetics and Personal Care

## •Others

The automatic checkweigher market has been derived from market trends and revenue generation factors from five different regions across the globe namely; North America, Europe, Asia Pacific, MEA, and SAM. The North America region holds the highest market share, whereas APAC is projected to be the fastest-growing region as well in the coming years. The major industries, such as automotive, pharmaceuticals, food & beverages, and manufacturing units, play a key role in generating demands for automatic checkweigher. These industries are key contributors to the North American economy and have significant impact on the overall GDP of the region. On the other hand, the growth of the automatic checkweigher market in APAC is attributed to the high demand for oil and gas owing to the rapidly developing manufacturing industry. The major economies in the region—China, Australia, and India—are investing heavily in the oil & gas industry, primarily to reduce their imports. These countries are also undertaking projects for the development of the hydroelectricity and renewable electricity generation sources.

The automatic checkweigher market by technology is segmented into electro magnetic force restoration and strain gauge. The strain gauge holds a significant share in the market, whereas electro magnetic force restoration is expected to be the fastest-growing technology during the forecast period. The strain gauge technology facilitates easy installation and hassle-free experience during its operation. To protect the checkweigher from harsh environment, the user is suggested to purchase load cell with properly sealed strain gauges. The EMFR weigh cells facilitates lightning-fast weighing results. The EMFR technology is anticipated to be a growing technology for automatic checkweigher manufacturers.

## Reasons to Buy

- Highlights key business priorities in order to assist companies to realign their business strategies.
- The key findings and recommendations highlight crucial progressive industry trends in the global Automatic Check Weigher market, thereby allowing players to develop effective long term strategies.
- Develop/modify business expansion plans by using substantial growth offering developed and emerging markets.
- Scrutinize in-depth the market trends and outlook coupled with the factors driving the market, as well as those hindering it.
- Enhance the decision-making process by understanding the strategies that underpin commercial interest with respect to products, segmentation and industry verticals.
