LONDON, GREATER LONDON, UK, January 21, 2020 /EINPresswire.com/ -- The global dishwashers market is expected to grow at a rate of about 2% and reach \$2.55 billion by 2023. The increase in working population with less time for household chores is expected to increase the demand for dishwasher appliance market. However, stainless steel is a major raw material used in dishwashers manufacturing. As the cost of steel increases, simultaneously does the production cost of dishwashers. The fluctuation in raw material prices is expected to restrain the dishwashers market.

The dishwashers market consists of sales of electric dishwashers. Dishwashers are household electric appliances used to clean utensils.
