

Military Space Situational Awareness 2020 to explore how we track and manage assets and debris mitigation

SMi Group Reports: Military Space Situational Awareness will feature 7 presentations dedicated to space debris

LONDON, UNITED KINGDOM, January 21, 2020 /EINPresswire.com/ -- Taking place in London on the 29th and 30th April 2020, [Military Space Situational Awareness](#) is the leading conference in Europe dedicated to space surveillance. The event will bring together key stakeholders across military, government and industry to explore ways to build a collaborative approach to space management and Space Situational Awareness (SSA).

This year, the conference aims to explore the growing emphasis on how we track and manage assets and debris mitigation efforts to protect the domain for future.

[The two-day event](#) features 7 presentations dedicated to space debris:

Military Space Situational Awareness 2020

1. UKSA lines of effort Within SSA

Ms Emily Mills, Domestic Space Surveillance and Tracking Lead, UK Space Agency

2. Fraunhofer FHR's contribution to German SSA

Mr Youngkyu Kim, Spokesman of the Business Unit Space, Fraunhofer Institute

3. Enhancing Space Security Through effective SSA

Professor Serge Plattard, Deputy Director, Space Domain, University College London

4. CREAM – ESA's proposal for collision Risk avoidance and Mitigation

Mr Tim Flohrer, Space Debris Analyst, Co-Lead Space Surveillance and Tracking Segment, Space Situational Awareness Programme, ESA*

5. Italian SST and STM lines of effort

Lieutenant Colonel Walter Villadei, Chief, SSA and SST, Italian Air Force

6. The EU's SST Consortium Framework

Mr Pascal Faucher, Chair, SST, CNES

7. Protecting Space Infrastructure Through effective SST
Ambassador Sorin Ducaru, Director, European Union Satellite Centre

Not only this, the conference will feature industry insight on SST from Gold Sponsor, Exoanalytic Solutions. Exoanalytic Solutions is the world's leading provider of high-altitude space situational awareness (SSA) data products and services. With a network of over 300 telescopes, ExoAnalytic Solutions produces vast amounts of high-quality, real-time correlated observations of man-made satellites and debris.

The event brochure with the full agenda and speaker line-up is available on the event website at <http://www.military-space.com/einPR3>
