

UAE Logistics Market is expected to generate over USD 30 Billion by 2025: Ken Research

The report covers the competitive landscape and company profiles of major Freight Forwarding, Warehousing and Express Logistics Companies in UAE.

UAE, January 22, 2020

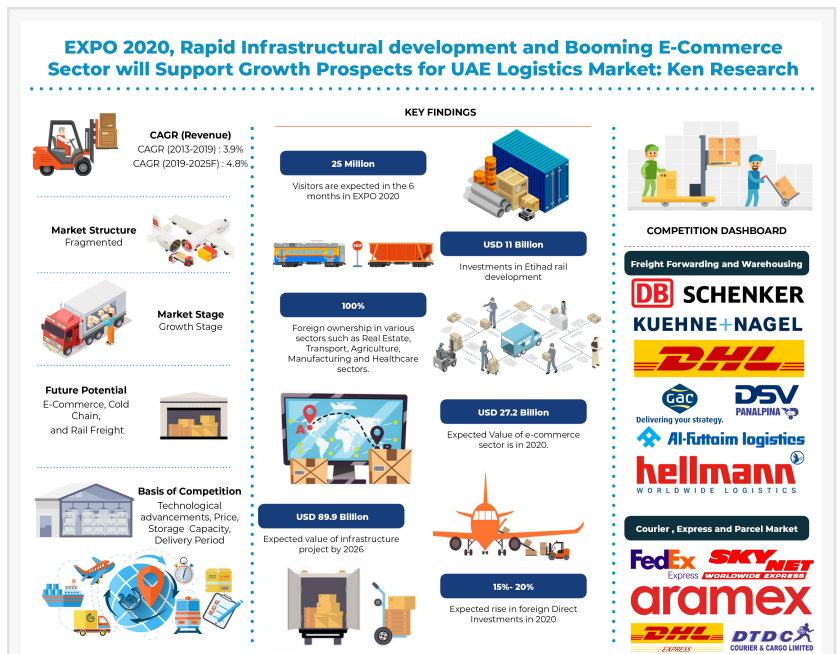

/EINPresswire.com/ -- UAE transport infrastructure investments has crossed AED100 Billion between 2006-2018

.The investments focused on development of rail network, expansion of airports and sea ports, technologically advanced infrastructure such as Hyperloop, active participation in the China's belt which is expected to boost the logistics sector of the economy.

UAE government initiatives to promote trade and economic diversification through EXPO 2020, free trade agreements, change in foreign ownership rule for some sectors and development of free zones near airports and seaports are expected to allure foreign investors to set up manufacturing industries in UAE.

UAE E-Commerce market is expected to grow by 23% annually between 2019 – 2022 because of economic diversification, increasing digitalization, expected rise in manufacturing industries and rising purchasing power of the population in UAE.

Impact of EXPO 2020: UAE government initiative to launch EXPO 2020 is to induce economic diversification in the economy which is targeted to reduce economy's dependence on oil sectors for growth. It is a platform for small and medium enterprises to get investments. It is expected to attract 25+ million visitors in UAE in the first six months from October 2020 and expected to add USD 23.4 Billion between 2015 –2021 and USD 32.94
