Class of 2021 Board Incumbents

Mark S. Casiano  
Jeff Kenton  
Paul Pospisil  
John Rolando  
Alfred A. Sagarese

About Société de Chimie Industrielle: The Société celebrated its centenary in 2018 as it was founded in 1918 in New York as the American Section of a French parent. Today, it is an independent organization involved in a number of non-profit activities, such as the monthly

luncheon meeting/speaker program, open to nonmembers, where prominent industry and government leaders and scientists share their views on important developments in the chemical and life science industries; webcasts on important topics; the granting of fellowships and scholarships to students pursuing the study of chemistry and chemical engineering; the sponsorship of a mentor program that matches our members with students at Columbia University, NYU, and Steven Institute of Technology; and events honoring individuals who have contributed significantly to the industry. For complete information please visit our website at [www.societe.org](http://www.societe.org).

In 1958, the Société instituted the prestigious International Palladium Medal, which "may be awarded biannually to an individual who is distinguished by reason of outstanding contribution to the chemical industry of such character and scope as to enhance the international aims and objectives of the Société de Chimie Industrielle." In 2019, the International Palladium Medal was awarded to Pierre Brondeau, Chief Executive Officer, FMC Corporation at a dinner in the ballroom of the Roosevelt Hotel in New York City.
