Dust Jacket and Cover for Toto's Tale, a Limited Edition

An ILLUSTRATED contemporary and commemorative eBook Trilogy celebrating L. Frank Baum's 120th anniversary of The Wonderful Wizard of Oz.

“

In Memory of L. Frank Baum... Most of us leave our mark as little more than scant ripples on Life's Oceans of Time. Others, however, make waves that carry on and outward to Time's farthest shores.”

Peeky (AKA Bob Moyer)

Alongside Toto, you will ride in the front seat of a thrilling and emotional roller coaster throughout the magical Land of Oz...and beyond. This Wizard of Oz takeoff is a multidimensional plot-twister that includes an updated original cast and a host of other wondrous quirky social misfits. This complex and intriguing parody has as much tongue-in-cheek humor as it does original content, adventure, mystery, fantasy, and romance.

YESTERYEAR

First published in the year 1900, electrical lighting, indoor plumbing, and automobile ownership were not widespread. There were less than 8000 cars on the road and no more than ten miles of paved roads. "Technology" was a train that could travel in six days that a covered wagon would take six months.

TODAY

"Technology" means medical miracles, lasers, drones, stealth bombers, satellite surveillance, space station, cyber warfare, and quantum computers. Incredible graphics in games like Minecraft and Fortnite and in films like Harry Potter, and Star Wars, have raised the bar. Today's fantasy lovers expect "fantastic" and it takes "awesome" in books and films to meet those expectations. The Wizard Was Odd trilogy has that kind of universal appeal. The glorious Lands of Western Oz, with elements of fantasy, steampunk, and science fiction coupled with its bizarre inhabitants, and their extreme subcultures will draw today's fantasy readers and game-minded fans into an Ozian world unlike any other.

THIS IS NOT A CHILDREN'S BOOK. IF YOU ENJOYED THE HARRY POTTER SERIES, THIS IS FOR YOU!
