

A New App to Create Meaningful Discovery

Broadcast your social accounts

VANCOUVER, BC, CANADA, January 27, 2020 /EINPresswire.com/ -- If you're a marketer, an entrepreneur, or someone who's pondered how to use your social media accounts in new ways, then you've sensed an untapped potential. How do you gain [followers](#), likes, or leads without posting more content? How can you leverage your uniqueness, your current location, or your surroundings? How do you post better content?

How can you rise above the noise in 2020?

There are countless teams of professionals asking themselves this question every day. Millions of people sit on subways, in waiting rooms, hallways, and public events with their heads down, staring into their screens. You scroll through your feed searching for an answer or maybe to kill time.

Occasionally, you look up. Survey the surroundings. Everyone gazing into their private digital world. What if the headhunter sitting across from you is searching for someone with your exact skill set? That boisterous group on the subway follows all your favorite streaming channels. The person next to you is the love of your life, and this is your one and only chance.

If only you had an icebreaker, like "Hi, I just came back from Machu Picchu. I see you have too."

Features and Benefits

BeDiscoverable App makes personal and professional connections possible by beaming your social media accounts to the surrounding area. Let's find out what [BeApp](#) can do in each category.

General and Personal Use

- Discover What's Near You - People, products, and places
- BeApp Integrated Messaging - Allows you to connect with others in a flash
- Adjustable Halo - Change your broadcast radius for super-centralized contact or to reach a wider audience
- Users Ranked by Proximity - Users ranked by physical proximity to your halo
- Accounts Visible Outside Your Halo - Users outside your halo are greyed-out
- Ensured Privacy and Security - Nothing private is broadcasted, only your chosen public profiles
- Stay in Control of What and When You Share - Toggle when you share on the fly with simple on/off buttons for each social media account
- Broadcast WiFi and Password - Want to make friends at the airport? Broadcast your WiFi name and password
- Offline and Airplane Mode Using Bluetooth and Chat - No internet connection? No problem! BeApp uses Bluetooth and its integrated messaging system for on and offline modes
- Works Great with WhatsApp - Get in touch with those around you via the integrated messaging system, save their WhatsApp phone number, and keep in touch!
- No More Asking for WiFi from Cafés and Restaurants - Business broadcasting near you makes their WiFi name and password visible
- Get Phone Numbers with a Tap of a Button - Broadcast your phone number and the person standing next to you appears at the top of your home screen (they are closest). Share your phone number without removing your phone from your pocket.
- Save Accounts To Your BeApp Contacts List - Allows you to save contacts on the app. Make a connection and know when they're nearby later on!
- Works on Smartphones and Tablets - Android and iOS

Professional Use

- Product Profile Mode - Businesses and places can switch to Product Profile mode to share the WiFi name and password with customers. Be the first shop on the block on their list!
- Gain Followers from People in the Area - Broadcast your social media accounts while you stream, present, or sport a new suit!
- Sell Your Product or Service - Got a new product? Broadcast your profile page, phone number, and contact info. You just increased your real estate and walk-in traffic!
- Switch to Sharing Only Your LinkedIn Profile in Professional Settings - You're always in control of what and when you broadcast. Tailor your presence to show only the most relevant information

No matter your profession or number of followers, BeDiscoverable App opens up a whole new world of possibilities. Don't get left in the dust. Join in on the next evolution of social media and human connection.
